## Introducing Sight Words!

The first half of the year: we focused on letter recognition, letter sounds and writing letters. The children have been doing so amazing with this by the way! For the second half of the year: we will be continuing to focus on everything that we've learned in the first half of the year, but bringing in word recognition and writing words/sentences. We started introducing our sight word wall this week. We will be introducing 3 sight words per week (the number of words will increase as the year goes on).
